Tyler Bantley

Web Developer

ABOUT ME

Aspiring web developer with growing knowledge in front-end and back-end technologies. I am looking to ascend into a new career in programming! Coming from almost 10 years in concrete construction I plan to bring to the team someone who is hard-working, detail oriented, reliable and with a very persistent attitude towards problem solving. I have always had a strong passion for tech and creating things, so I am happy to make this my future.

EXPERIENCE

Freelance Web Developer

2021- Present

Writing code for both back and front end of website development. Creating aesthetically pleasing web pages, combining my creative and technological skills.
